

### Glass-Filled Nylon Push-To-Connect Fittings

- Max. operating pressure: 290 psi
  - Temp. range: -4° to 175°F
  - Sold in packages of 10, unless otherwise noted
- Stainless steel gripping ring provides a secure, leak-free connection without tools; disconnects easily with the plastic release button. All

threaded elbows, tees, and Y's swivel around the threaded, nickel-plated base for easy installation. Fitting bodies are a composite material—nylon and nickel-plated brass. Thread sealant is preapplied to all tapered threads. Buna N elastomer seals.

Uses: For all pneumatic machines, as well as food-processing, packaging equipment, textile machinery, robotics, and semiconductor applications. Use with semirigid nylon, flexible polyurethane, polyethylene, and PTFE tubing.
